CIA-Domestic Intelligence: Itkin, Herbert, under FBI, Informants, 12/5/72 Tape First Tuesday

This April weather we've been having in December has enabled me to work up real fatigues working outside, so I've not been thinking too well. I should have made a copy of the attached note for the above file but forgot to. This will serve as a cross reference unless you have no interest and return. Don't bother photocopying. I still have no paper. If it interests, I also have stories from the Wash Post, States-Item, NYTimes and Daily News, of the time of the graft trial, about 1968, summer. The tape is 15 mins of less. HW
